

Economic Development

The Municipality of Port Hope Economic Development is your source for economic development information and assistance. We help site selectors and business owners with site selection, business start-up and expansion. We strive to promote the Municipality as a desirable location for investment and business.

Services Provided

We invite you to take advantage of the many services offered:

NEW BUSINESS INVESTMENT ATTRACTION AND SERVICES

Promotion and marketing of The Municipality of Port Hope through its 'Open For Business' policy.

The Economic Development Department encourages new investment through marketing activities, networking and contact development.

Site Selection Services

A detailed listing of Available Lands and Buildings is available for your site selection needs. We will actively assist businesses in finding the best location.

Small Business Start-up Information and Assistance

A wealth of information and assistance is available to assist entrepreneurs with their small business start-up needs. Economic Development will guide you through the first steps and refer you to various resources and information sources.

Community, Business and Economic Information

Statistical, demographic and economic analysis information is provided and maintained to assist with your business making decisions. Advanced Community Profile data is available through the Economic Development Office.
