

THE TREE'S STORY

Maple

Eleanor Jilesen

Hewson Drive

I have chosen to enter this tree because it needs all the support it can get, for this maple tree is new. My mom and I planted this tree in the spring in a planter. We are hoping it keeps growing bigger and bigger so we can plant it in the front yard.

I love this tree because I am a part of the tree's story and I know exactly how this tree's story began.

I also believe that it is important to plant trees in our community because so many trees are being chopped down because they are in the way.
