“ESCO, a steel foundry, has been operating in Port Hope since 1963. Our activities have grown steadily over the last 40 years thanks to the on-going support from our Employees as well as the Community and the Municipality. In today’s business climate, it’s reassuring to know that we can continue to count on their cooperation while operating in increasingly competitive global markets. The mayor, the municipality staff and the economic development office have always been readily available to work with us to address our concerns, their collaboration is valuable.”
